US LETTER + A4

# This Book Belongs To

Date started _____

Date finished _____

# Before you begin

## Printing

• Use the file for your paper: US Letter in the US and Canada, A4 almost everywhere else.

• In the print dialog choose 100% or “Actual size” — not “Fit to page”.

• Print in greyscale with draft mode off, so the outlines come out crisp and dark.

• Plain paper is fine for pencils and crayons. For markers or gel pens use 100 gsm (28 lb) or heavier.

• Every design is on its own page, so nothing bleeds onto the next picture.

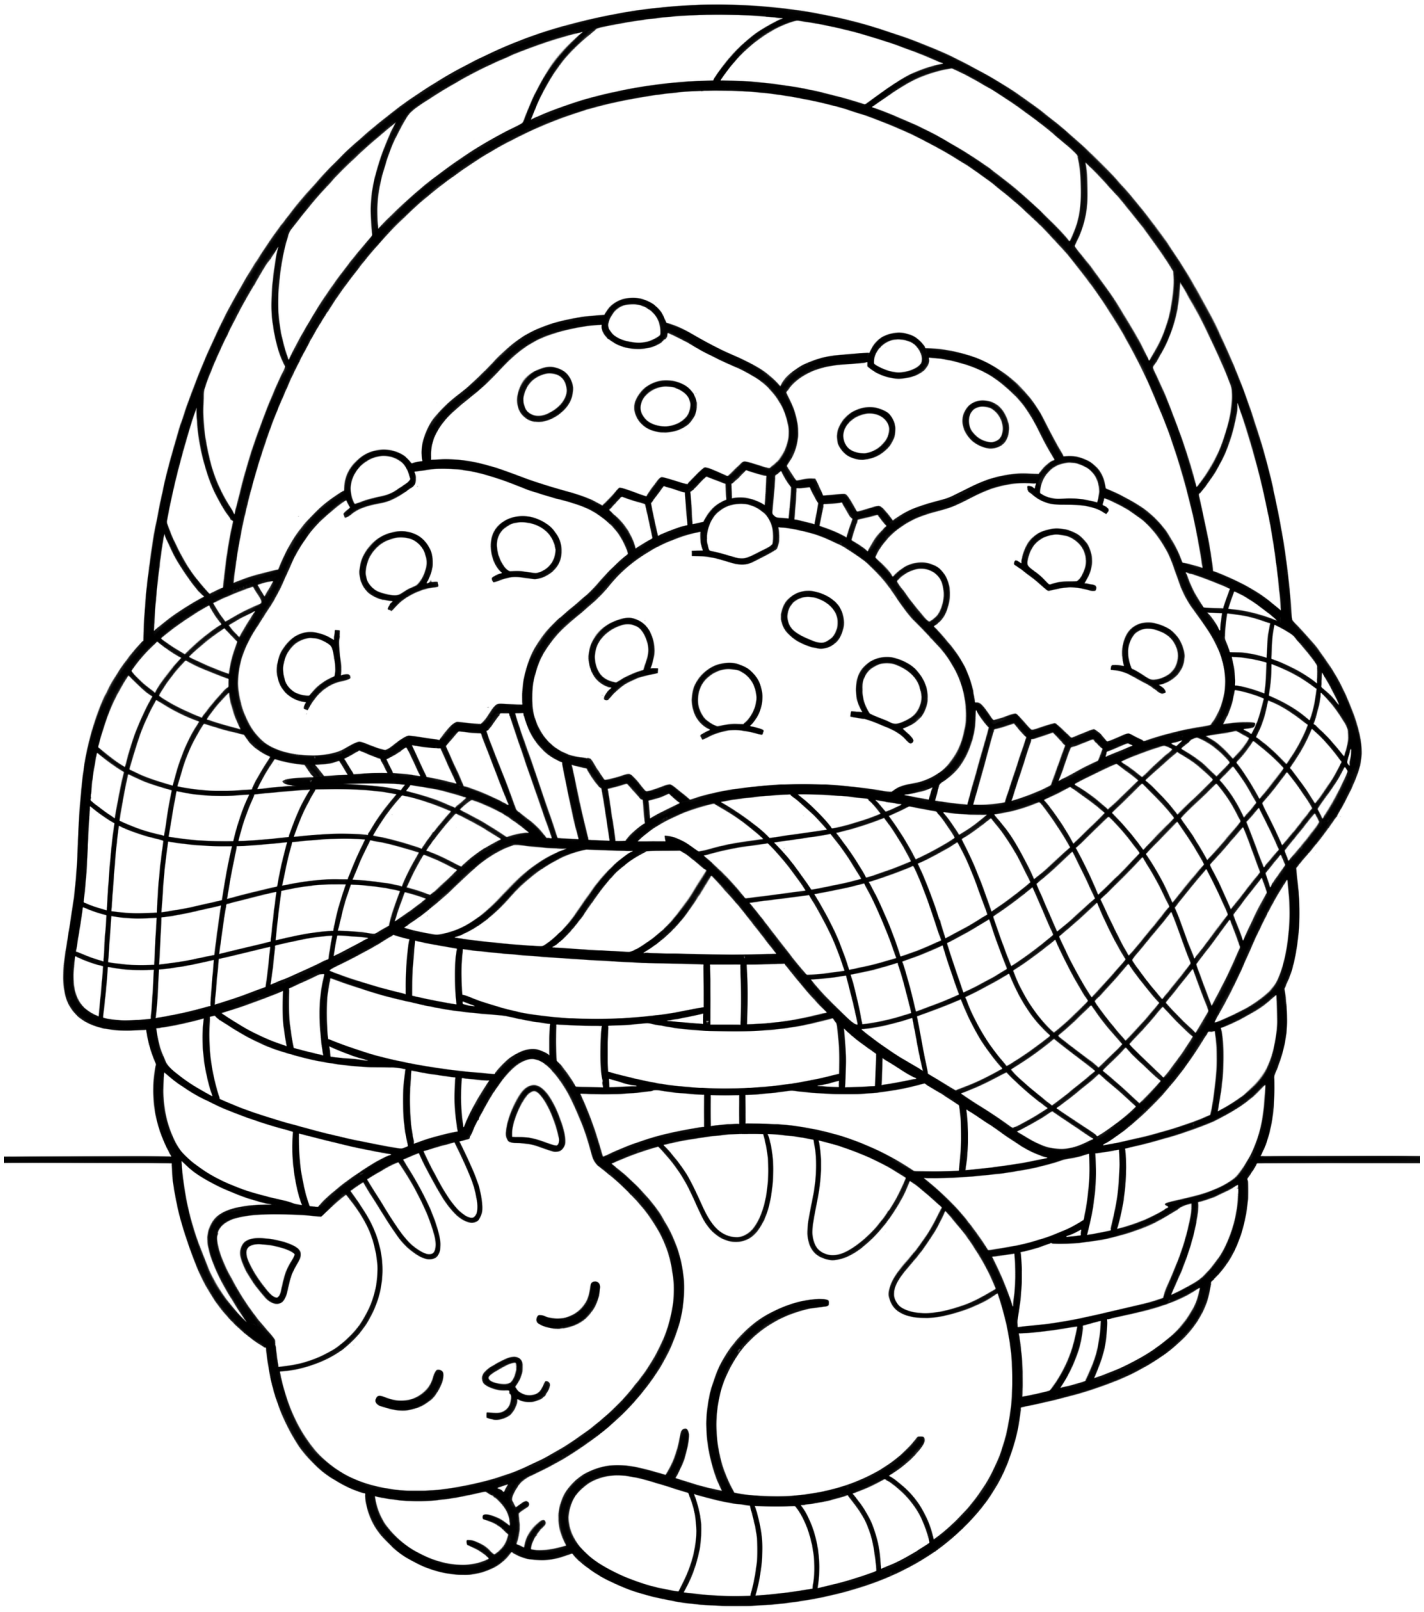

## License — personal use

Print as many copies as you like for yourself, your own family or your own classroom. Please don’t share, upload, resell or give away this file or the printed pages, and don’t use the artwork commercially. Need a whole-school or commercial license? Email us.

## Help

File won’t open or print properly? Email littlepageshop@leafyorb.com and we’ll fix it or refund you.
